PRODUCT DESCRIPTION

F020 ADJUSTABLE FACE SHIELD

Item # FS020

F020 ADJUSTABLE FACE SHIELD (75 PIECE CARTON)

These disposable, non-medical grade protective face shields are clear, transparent screens that cover the face to help prevent droplets from entering the eyes, nose, and mouth. This clear acrylic material wraps around the face for maximum visibility and does not require any additional hardware or headband.

Our one size fits all face shields include an adjustable strap that is 15.75" x 10" x .020". Before assembly please remove the protective masking on both faces of the acrylic. Please use the face shield instructions (under downloads) for easy, step-by-step assembly and cleaning recommendations.

This product ships ONLY in a carton of 75 individual face masks.

Color (Cap/Main Color) Clear
