PRODUCT DESCRIPTION

Flock Lined Nitrile Gloves

8125N Medium

8126N Large

8127N X-Large

Emerald Nitrile Flock Lined Gloves are designed for use in industrial environments where protection from hazardous substances is required. The nitrile formula resists many aliphatic solvents, oil-based chemicals, fats, and greases. These gloves have a flock lining that provides comfort without loss of chemical resistance. It absorbs perspiration, and eases donning and removal of the glove. The open cuff allows ventilation to keep hands cool. These gloves have

great puncture and abrasion resistance.

Emerald Nitrile Flock Lined Gloves are 15 mil thick, 13" long, and are packed 12 dozen pairs per case.
