## PRODUCT DESCRIPTION

### Liberty Full Length Bed Rail

GF6570B-1 Lumex Liberty Full Length Bed Rails 2 / PR Gray

GF6680B-1 Lumex Liberty Bed Rail Crossbars 2 / PR Gray

The Full Length Rail is a nominal, telescoping full length rail that provides maximum length rail perimeter coverage, intended for use by patients requiring maximum length rail and maximum perimeter protection. Designed to offer added protection, the Lumex Liberty Rails follow the FDA Hospital Bed System Dimensional Guidance to Reduce Entrapment and the Hospital Bed Safety Workgroup and FDA Dimensional Test Methods for Bed System Zones 1-4 to reduce bed entrapment.

#### Features:

Improved rail design decreases the spacing between the crossbars, thus reducing the risk of entrapment

New bed rail length closes open areas that can occur during full bed articulation

Rails now mount in fixed patent pending rail slots on Patriot™ bed deck to prevent sliding and moving — easy installation saves delivery and setup time and ensures proper rail placement

Spring-loaded, self-adjusting crossbraces feature safety tabs that prevent accidental disengagement when bumped or during application of side pressure

Patriot™ Liberty Bed Rails have been tested to the highest Medical Bed System standards

Designed to be used specifically with the Patriot™ and WhisperLite™ II full-electric beds that are commonly used as standard-height or low beds

Heavy-duty steel construction

Rails are powder-coated with an environmentally-friendly, long-lasting hammertone finish and secure gripping surface

Tool-free installation

3 Year Limited Warranty

Designed to meet the requirements of HCPCS E0310

Specifications

Overall length: 44 1/2" (full extension - 62")

Overall height: 13.5"
